

EDEIVER BARRANCO ECHEVERRIA

Systems Engineer | Front-End & Mobile Developer — React Native · Expo · React.js · JavaScript

Barranquilla, Colombia · +57 304 264 1142 · edbarranco4@gmail.com · linkedin.com/in/edeiver

SUMMARY

Front-End and Mobile Developer with 7+ years of professional software development experience. Specialized in React Native, Expo, React.js and JavaScript, with hands-on experience building payment and financial applications, crypto-related products, API integrations, white-label solutions, mobile releases and production troubleshooting. English: professional working proficiency.

EXPERIENCE

Cobru S.A.S. — Front-End / Mobile Developer*Jan 2023 – Aug 2026*

- Led mobile development for payment applications, white-label solutions, and products involving cryptocurrency-related functionality.
- Developed and maintained Cobru and white-label mobile apps, adapting products to different brands and business requirements.
- Implemented and supported payment and crypto-related integrations, guiding client companies through technical integration requirements.
- Managed app releases and store deployments, and coordinated with backend teams to resolve production bugs and ensure reliable end-to-end functionality across payment and digital-asset flows.

Trixel S.A.S. — Front-End Developer*2020 – 2022*

- Developed and maintained front-end and mobile applications using React, React Native, Expo, and JavaScript.
- Worked closely with backend teams to integrate features end-to-end, deployed application updates and new releases, and provided ongoing technical support and bug fixes for production applications.

Athena Bitcoin — Front-End Developer, National Wallet App (Client Project via Trixel S.A.S.)*San Salvador, El*

Salvador

Jun 2021 – Dec 2021

- Engaged by Athena Bitcoin through Trixel S.A.S. to build the first version of a Bitcoin wallet application for the Government of El Salvador, as part of the country's national Bitcoin adoption initiative.
- Developed the app's front-end and mobile functionality using React Native, Expo, React and JavaScript, coordinating with the backend team to integrate wallet features end-to-end, deployed updates, and provided ongoing technical support throughout the engagement.

Royal Films S.A.S. — Web Developer*Jun 2019 – Dec 2019*

- Developed web interfaces and web-based software functionality using JavaScript and React.

TECHNICAL PROFILE

Mobile: React Native, Expo

Web: React.js, JavaScript

Integrations: REST/API, Payment integrations, Crypto-related integrations, Backend coordination

Delivery: App Store, Google Play, Production troubleshooting

Product: Payments, Fintech, Cryptocurrency/Web3, White-label (self-custody wallets, gas fees, NFTs)

Security: Secure coding practices (Secure Development Training, 2024)
